This investment policy applies to all financial assets of the City of Thorndale and any new funds created unless specifically exempted by the City Council.

Investments are to be chosen in a manner which promotes diversity. To match anticipated cash flow requirements the maximum weighted average maturity (WAM) of the overall portfolio may not exceed 12 months.

- Safety of each investment transaction shall be conducted in a manner to avoid capital losses, whether from security defaults, safekeeping or erosion of market value.
- Liquidity shall be structured to meet all expected obligations in a timely manner.
- Diversified by market sector and maturity in order to avoid market risk.
- Yield by maintaining a cash management program which includes timely collection of accounts receivable, vendor payments and investment of assets.

SECTION 2: The investment strategy objective is to assure anticipated liabilities are matched and adequate investment liquidity provided by creating a structure with some extension for yield enhancement.

SECTION 3: The Investment Officers designated by the Council consist of the City Administrator and City Secretary. The Investment Officers are responsible for investment decisions and activities. Officers shall attend training every two successive fiscal years and newly appointed Officers shall attend at least ten hours of training within 12 months of designation as Investment Officer.

The Investment Officers are responsible for establishing and maintaining internal controls to reasonably assure that assets are protected from loss, theft, or misuse. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires ongoing estimates and judgments by management.

An Investment Officer who has a personal business relationship with an organization seeking to sell an investment to the City shall file a statement disclosing personal business interest to the Council and the Texas Ethics Commission.

The Investment Officer, acting in accordance with written procedures and exercising due diligence, shall not be held liable for a specific security's credit risk or market price changes, provided that these deviations are reported immediately and appropriate action is taken to control adverse developments.

The Investment Officers shall report earnings quarterly to the Council.
